The Intelligent Asset Allocator How to Build Your Portfolio to Maximize Returns and Minimize Risk

NOTES: The Intelligent Asset Allocator by William Bernstein

- “When an asset class does well, an index fund in that class does even better” –Steve Dunn
- Actively managed funds have a higher turn-over and capital gains - which are taxed
- A lot of actively managed funds tend to not beat the market... because THEY ARE THE MARKET

Understanding Modern Portfolio Construction

Of course, some asset allocators must, by definition, outperform other asset allocators inside of this aggregate portfolio This creates a conundrum for the intelligent asset allocator Modern Portfolio Theory teaches us that diversification is the only free lunch in asset allocation and that beating the market is extremely difficult for sustained

The Best Books on Passive Investing: The Earth Does

Intelligent Asset Allocator” to be tough going, “Four Pillars” is a good substitute Bernstein’s latest book, The Investor’s Manifesto: Preparing for Prosperity, Armageddon, and Everything in Between, is a reaction to the 2008-2009 stock market meltdown In its pages he not only presents the
